Audit-Ready & Secure

Compliance Made Easy

Automate your regulatory tracking and stay survey-ready every single day.

47-State Coverage

Pre-built learning paths mapped directly to your specific state regulatory requirements.

Automatic Tracking & Verification

Automatically tracks, reminds, and verifies, cutting manual effort by up to 2X and reducing admin workload.

Audit-Ready Always

Organize training records, certificates, & approvals in one system. Stay prepared for renewals and audits with complete visibility.

Role-Based Access Control

Secure permissions for HQ, branches, and franchises. Ensure the right people see the right data.

Zero Compliance Surprises

Never miss a renewal. Our system flags expiring training automatically.

Multi-Location Ready

Standardize training across all your branches while maintaining local records.

Instant Access

Download full audit logs in seconds.

WHY

Learn2Care?

- AI-powered caregiver training platform
- Tracks training and certifications for you
- Learn through real-life care situations
- Works for big agencies and franchises with many locations
- Training, compliance, and performance all in one place
